2. SUMMARY OF QUALIFICATIONS

I am a graduate with a BSc degree in Information technology from the North West University in South Africa.

I am a full stack software developer who has developed a numerous personal projects hosted on github. I have strong passion for software development and technology in general. I believe in skill transfer, as I like teaching people what I know and also learn from them.

I'm seeking a position where I can further advance my career as a software developer or Database developer and become one of the professionals that any company can be proud of. I'm also a great listener and a learner who communicate effectively with others.
